# **Product Information**

# Industrial EP Gear Oil

### Premium Gear and Bearing Lubricant

#### **DESCRIPTION**

**SynGard** Full Synthetic EP Gear Oils is designed for extended protection of industrial gears and bearings. It is formulated using state-of-the-art additive technology and premium synthetic base stocks to provide exceptional high and cold temperature protection under severe conditions.

SynGard<sup>™</sup> Full Synthetic EP Gear Oils provides exceptional termal and oxidation stability for extended product service life. The product is designed for industrial applications including enclosed gears and heavily loaded plain and roller element bearings.

#### **APPLICATION**

SynGard<sup>™</sup> Full Synthetic EP Gear Oils are recommended for bearings and gears operating under high temperatures, for applications which experience a wide range of temperatures.

#### **BENEFITS**

- Exceptional low pour point and high viscosity index
- Greater film thickness at higher temperatures and
- Lower viscosities at low temperature start up
- Low foaming tendencies
- Oxidation resistance guarding against rust and corrossion
